SONIC DELIGHTS FOR YOUR LISTENING PLEASURE

## SONOPHILIA PRESENTS

Take Time is a looped 15 minute sound piece - originally devised for Lincoln Drill Hall's main auditorium - dealing with responses to the nature of time. The audio comprises time-stretched & warped domestic noises, treated sine waves & distant vocals.

This soundscape version is presented as pure audio, although the initial airing of the work included accompanying site-specific installation elements in the form of physical tableaux and lighting.

Sunshine Gray was a multimedia/sonic artist based in Lincoln whose practice both included avant-garde digital technique and took influence from her decades of musical, artistic and performance experience.

Sunshine died earlier this year and is much missed by her fellow artists and friends, in Lincoln and far beyond.
